

Company Profile

2021

A word from our CEO

- We lead by example
- We work together as a team
- We respect the individual
- We seek the facts and provide insight
- We are open and honest in our communication
- We are committed to our communities
- Above all, we act with integrity

One of the benefits of Privatization and outsourcing with us is that it can reduce public spending and increase efficiency. Using us as contractors saves money and frees up the military to concentrate on its core missions. While contractors' pay may seem high, it is cost-effective because they are paid only when needed. When comparing costs, the significant benefits received by armed forces personnel must be considered.

S. Stander
CEO

Introduction

Fort Elite Africa CPO is a registered Close Protection services company that provides **Integrated Risk Solutions** to its clients in a rapidly growing Africa. Fort Elite draws upon a wealth of experience gained across many countries and over decades of service, all in the service of government law enforcement agencies, multi-national companies and privately owned specialized security-related entities.

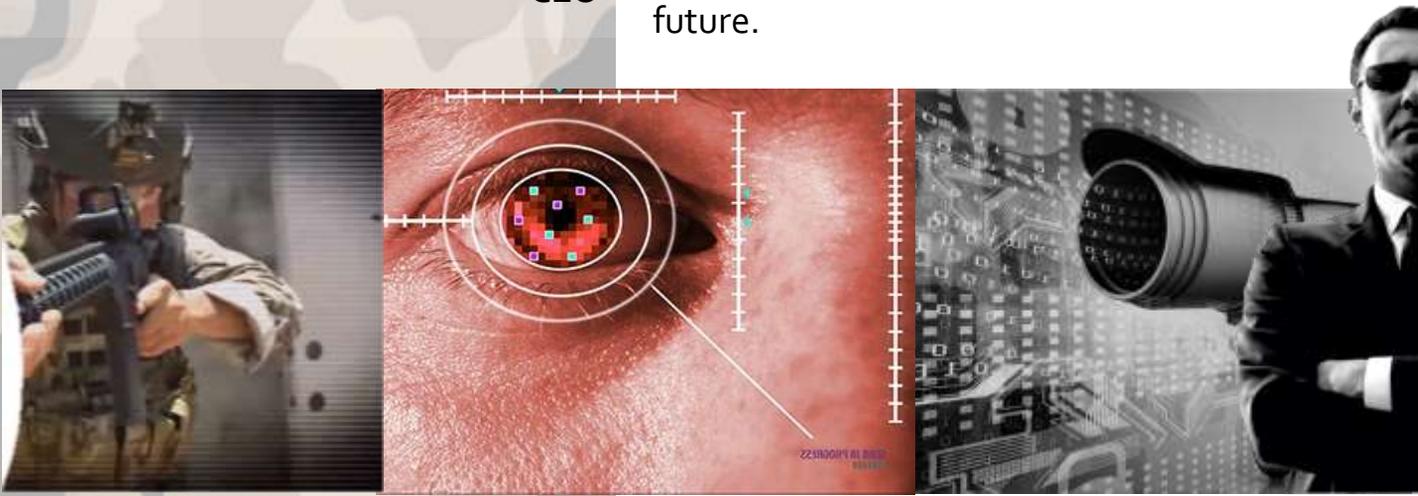

Mission

The mission of Fort Elite is to be the most admired and innovative center of excellence fused together in perfect synergy of Integrated Risk Solutions. Strong and Elite.

To ensure peace of mind to our clients by providing the highest level of protection for their enterprise, their assets and the safety of their personnel. We strive to enhance the well-being of the clients' business interests by maintaining a safe and secure environment in which to operate.

Vision

To be a world-class organization and a catalyst for effective management, accountability and positive change in the sector we operate in. We envision a world in which the most vulnerable people will have the power to lift themselves out of poverty and create vital, healthy lives for their families and communities now and for the future.

Our Values

Integrity

We remain independent, striving to maintain the highest level of trust, integrity and professionalism. Our work is fact-based, objective and supported by sufficient, appropriate evidence in accordance with professional standards.

Accountability

We accept responsibility for our work products and services, upholding the highest professional standards by evaluating and measuring our results against stated performance measures and targets. We strive to ensure that our work is relevant, credible and timely,

Teamwork

Our success depends on working together and fostering an inclusive and mutually supportive environment. Our work environment encourages collaboration, innovation, flexibility and integration of ever improving resources.

Communication

We clarify expectations up front and communicate openly, honestly and accurately with our associates and our stakeholders. We look for ways to improve ourselves and our work products by seeking, giving and using both praise and constructive feedback.

Respect

We promote diversity and equal opportunity throughout the organization. We value and respect the views of others.

Strong & Elite

Our Services

Fort Elite's fused model of security protection is therefore a combination of different but complimentary layers or barriers (natural, human, animal, mechanical, energy, technological and psychological) to **detect, deter, delay, deny, defend or defeat** unauthorised access and harm to persons, property, information and reputation. The intensity of such measures depending on the threat or perceived threat and within available resources and budgets. This concept of operations is built on the backbone of **specific intelligence operations**. To achieve that, our operational services are:

- Risk, Threat & Vulnerability Assessments / Security Surveys
- Rapid Deployment Teams during Intervention Operations
- Leadership Training, Mentoring and Advisory Services
- Maritime and Waterborne Security Operations
- Command & Control Centre Management
- Security Technology, Mobility and Systems
- Specialised Security and Firearm Training

- Technical & Surveillance Solutions
- Crime Scene Management
- Critical Infrastructure Access
- International Criminal Monitoring
- High Tactical Support (Heist)
- Crowd Control
- Disaster Support
- Arms & Ammunition Supply

**Strong
& Elite**

Basic Principles of Security

Any operational security plan should be compiled consistently with the basic principles of security.

- Safety is defined as the freedom from harm or danger.
- Security is defined as the freedom from intentional harm or danger.
- Security is thus a condition that results from the establishment and maintenance of protective measures that ensure a state of inviolability from hostile acts or influences.
- It is achieved by the arrangement of a combination of different but complimentary layers or barriers (natural, human, animal, mechanical, energy, technological and psychological) to deter, delay, deny, detect, defend or defeat unauthorised or unjustified access and harm to persons, property and information.
- The intensity of such measures depends on the threat of perceived threat and within available resources and budgets.

Firearm Training / Security Training

Fort Elite has taken hands with an accredited service provider at the South African Professional Firearm Trainers counsel & SAPS. Potential firearm owners must successfully undergo the prescribed training at an accredited training institution and obtain a training proficiency certificate. Security companies armed personnel must also undergo Business purpose training in the particular firearms they are working with and undergo regular refresher training under section 21 of the Act.

Courses

- Legal test – Knowledge of the Firearms Control Act 60/2000 applicable to possession of a firearm
- Handle & use of firearms in various classes and applications
- Regulation 21 Compliance Testing
- Renewal of Business Purposes Competency Certificate
- We also provide customized courses to suit your budget and requirements
- We also assist in the evaluation of existing training courses and implement evolutionary changes as required
- We strive to practice realistic skills and scenarios that can emulate real situations allowing the shooter develop and maintain real defensive shooting skills
- We also provide specific tailor-made courses for supervisors and seniors with the security industry which assist in the day-to-day operation and performance enhancements Where firearms are required the Company is fully compliant in terms of the Firearms Control Act 60 of 2000. We have accredited assessors and moderators
- All armed officers are trained, have competency certificates and undergo regular training and assessments. Training incorporates tactical, theoretical and practical exercises
- Self-defense and real-life scenario training to save lives
- Conduct own in-house training
- Pre-Course and fitness selection tests and training
- Access and use of a tactical shooting range and house clearance facilities
- Advance driver training and instructors
- Advanced ambush and counter techniques
- Anti-poaching

Strong & Elite

Close Protection Operative (CPO) Training / Bodyguarding

CELEBRITIES

PUBLIC FIGURES

EXECUTIVE PROTECTION

Personal Protection (Close Protection) has been a necessary part of the business for a long time. The need to protect the company, its brand reputation, its people, its profits, and its financial secrets have always been the main objective. Every business or individual will be protected by protective security measures, with most measures being so normal that they are a simple part of our everyday lives. Our course focuses on Counter-Terror methods for people with no experience in the Private Security Industry.

The Close Protection Operative will teach you how to manage VIP security, organize a security team, and all the logistics of prevention. Protection work is very demanding and exhausting. For that reason, it is essential to have excellent preparation. To ensure you don't make mistakes in the future, our staff with different sectors will pass on their experience.

Other Support Services

"Providing Security Solutions to the Global Industry"
